L 2. 3:

For more information on employment, hours, and earnings...

Employment and Earnings, a monthly periodical of the Bureau of Labor Statistics, features national, State, and area statistics on employment, unemployment, hours, and earnings, plus timely analyses of current developments. Subscription price per year $31 domestic, and $38.75 foreign. Single copy $4.50 domestic and $5.63 foreign. Annual supplement $8 domestic and $10 foreign. Subscription includes annual supplement.

Employment, Hours, and Earnings, States and Areas, 1939-82

(BLS Bulletin 1370-17), based on the 1972 *Standard Industrial Classification Manual*, contains industry detail currently published by each State agency cooperating with the BLS. Annual averages, from the earliest date available through 1982, are shown on employment, hours, and earnings for the 50 States, the District of Columbia, Puerto Rico, the Virgin Islands, and 272 major areas. Price per 2-volume set: $11.00

How to order:

The monthly periodical *Employment and Earnings* and the annual compendium *Employment, Hours, and Earnings, States and Areas, 1939-82* (BLS Bulletin 1370-17), may be ordered from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Bulletin 1370-17 may be obtained also from any of the BLS Regional Offices listed on the inside back cover.

Preface

This two-volume compendium is the 13th comprehensive historical databook on national establishment-based employment, hours, and earnings statistics to be released by the Bureau of Labor Statistics since 1961. It replaces *Employment and Earnings, United States, 1909-78* (BLS Bulletin 1312-11), issued in 1979.

Bulletin 1312-12, as did its predecessor volumes, presents detailed industry statistics on the Nation's nonagricultural workers. Included are monthly and annual averages on employment for all employees and women employees; production workers in manufacturing and mining; construction workers in construction; and nonsupervisory workers in the remaining private nonagricultural industries. Also shown for private nonagricultural industries are average weekly hours and average hourly and weekly earnings. Average weekly overtime hours and average hourly earnings excluding overtime are presented for selected manufacturing series. Historical seasonally adjusted data are presented for a number of these series. This bulletin also includes indexes of aggregate weekly hours and aggregate weekly payrolls, and constant-dollar earnings related to 1977 as a base year.

This databook has been expanded to include additional industry detail, particularly for the service-producing sector, but also for several industries within the goods-producing sector. It contains no data for the spendable earnings or the labor turnover series which were both discontinued with the publication of 1981 data.

The major technical characteristics of the Current Employment Statistics program, such as scope, concepts, survey methods, estimating techniques, and limitations, highlighted in the next few paragraphs, are described fully in the technical note following the tables.

This bulletin was prepared by the Division of Monthly Industry Employment Statistics in collaboration with the Division of Data Development and Users' Services. Data were processed under the direction of Brendan J. Powers, Project Manager for Federal/State Monthly Surveys in the Office of Survey Processing.

Material in this publication is in the public domain and, with appropriate credit, may be reproduced without permission.

Benchmark adjustments

Periodically, BLS adjusts its industry employment series to more recent benchmarks (comprehensive counts of employment) to correct for sampling variability and for changes in the industrial activity of establishments. Estimates in this databook are projected from the most recent benchmark available—March 1983. Unadjusted series from April 1982 forward and seasonally adjusted series from January 1979 forward are not comparable with those previously published in *Employment and Earnings* or the *Monthly Labor Review*. All unadjusted series for periods after March 1983 and all seasonally adjusted series for periods after December 1979 are subject to revision when the series are adjusted to new benchmark levels. The next revision is scheduled for publication in mid-1985.

Collection of data

Each month, a representative panel of industrial, commercial, and government establishments, employing collectively over 35 million workers, voluntarily submits information from payroll records to the State agencies participating in the Current Employment Statistics program. After extracting data necessary for the preparation of State and area estimates on employment, hours, and earnings, these agencies forward the reports to BLS for use in the development of national estimates. This program is conducted jointly by BLS and State agencies.

Industrial classification

The Standard Industrial Classification (SIC) system is used to achieve uniformity and comparability in the presentation of industry data and to reflect structural changes that occur in a dynamic economy. The industry statistics in this databook are

based on the 1972 *Standard Industrial Classification Manual* published by the Office of Management and Budget.

Related State and area statistics

Only national data are presented in this databook. The bulletin, *Employment, Hours, and Earnings, States and Areas, 1939-82* (BLS Bulletin 1370-17), provides similar information for all 50 States, the District of Columbia, Puerto Rico, the Virgin Islands, and 272 major labor market areas, most of which are Standard Metropolitan Statistical Areas. The bulletin contains annual averages for total employment, average weekly hours, and average hourly and weekly earnings on the same basis as the national data.

Publication of current data

Beginning with the June 1984 issue, current statistics comparable with the figures shown in this bulletin are provided each month in the periodical *Employment and Earnings*. (For details on ordering, see the inside front cover of this bulletin.)

Contents

Page

Volume I:

Detailed statistics:
Employment, hours, and earnings by industry:
Total nonagricultural establishments 3
Total private 4
Goods-producing 7
Mining 9
Construction 35
Manufacturing 55
Durable goods 58
Nondurable goods 389

Footnotes 621
Technical note 622
BLS regional offices and cooperating State agencies (inside back cover)

Volume II:

Detailed statistics:
Employment, hours, and earnings by industry:
Service-producing 633
Private service-producing 634
Transportation and public utilities 636
Wholesale and retail trade 669
Wholesale trade 671
Retail trade 696
Finance, insurance, and real estate 739
Services 761
Government 794
Seasonally adjusted series by industry:
Employees in nonagricultural establishments 807

Pag

Seasonally adjusted series by industry—Continued
Women employees in nonagricultural establishments 82
Production or nonsupervisory workers on private nonagricultural payrolls 83
Average weekly hours of production or nonsupervisory workers on private nonagricultural payrolls 85
Average hourly earnings of production or nonsupervisory workers on private nonagricultural payrolls 86
Average hourly and weekly earnings of production or nonsupervisory workers on total private nonagricultural payrolls, in current and 1977 dollars 86
Average weekly overtime hours of production workers on manufacturing payrolls 86
Indexes of aggregate weekly hours of production or nonsupervisory workers on private nonagricultural payrolls (1977 = 100) 86
Special series by industry:
Indexes of aggregate weekly hours of production or nonsupervisory workers on private nonagricultural payrolls (1977 = 100) 88
Indexes of aggregate weekly payrolls of production or nonsupervisory workers on private nonagricultural payrolls (1977 = 100) 89
Average hourly and weekly earnings of production or nonsupervisory workers on private nonagricultural payrolls, in current and 1977 dollars 90
Average hourly earnings, excluding overtime, of production workers on manufacturing payrolls 92

Footnotes 93
Technical note 93
BLS regional offices and cooperating State agencies (inside back cover)

Employment, Hours, and Earnings by Industry

All data include Alaska and Hawaii beginning in 1959
